I am a deep-thinking software developer, with a passion for creativity and an obsessive eye for detail. I am authentic with others and myself, and value my ability to recognize my strengths while honestly assessing my weaknesses. I am eager to continuously learn and collaborate with others, and will bring a keen sense of humor to every new situation I face.

Education

General Assembly, Washington, DC
Full-Time Web Development Immersive, July 2014
Full-stack web development program focused on common best practices in object-oriented programming, MVC frameworks, data modeling, and test-driven development. Developed a portfolio of individually focused and collaboratively focused projects.
